GEEPLAST INDIA

Company Profile:

Efficiently working towards surpassing the customer expectations, We **GEEPLAST INDIA** are engaged in design and development of a premium quality product range. Incepted in the year **1994**, we have grown by leaps and bounds owing to our dedicated business approach as well as strong commitment towards quality. Over the years, we have been able to develop competency in manufacturing a superlative range of **Plastic Waste Grinders & Blades**. As an eminent manufacturer, supplier and service provider of these products, we strictly adhere to the set industry standards as well as pay extensive attention to each and every production detail. We have employed a team of dexterous professionals who make sure that the products are manufactured in compliance to the international standards of quality. Moreover, they carry out all the processes with utmost care so as to ascertain optimum effectiveness. In addition to this, the professionals also ensure that all the client provided specifications are carefully incorporated in the product range.

Why Choose Us:

- Quality and Performance:** We prioritize the quality and performance of our plastic waste grinders. Our machines are built using high-grade materials and cutting-edge technology, ensuring durability, efficiency, and consistent performance over time.
- Experience and Expertise:** We have years of experience in designing, manufacturing, and supplying plastic waste grinders. Our team consists of experts who understand the intricacies of the industry and can provide tailored solutions to meet your specific requirements.
- Customization Options:** We understand that different customers may have unique needs. We offer a range of customization options, allowing you to choose the specifications that best fit your applications and budget.
- Safety and Compliance:** Our plastic waste grinders are designed with safety in mind. They adhere to relevant safety standards and regulations, minimizing the risk of accidents and ensuring safe operation.
- After-Sales Support:** Our commitment to you doesn't end with the sale. We provide comprehensive after-sales support, including installation, maintenance, and troubleshooting services. Our customer support team is always available to assist you.
- Cost-Effectiveness:** While we prioritize quality, we also aim to offer cost-effective solutions. Our plastic waste grinders provide excellent value for money, with a focus on long-term reliability and efficiency, reducing overall operational costs.

PLASTIC WASTE GRINDER MACHINE

GEEPLAST INDIA

Salient Features:

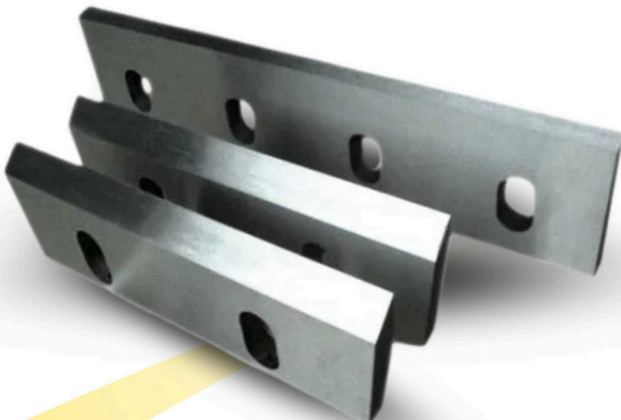

- ☑ Energy Saving
- ☑ Blades are made with a high Carbon/high Chromium die Steel (D3).
- ☑ Hardened grinded for longer life.
- ☑ Safety switch to prevent the granulator operating when the blade covers are removed.
- ☑ High Production
- ☑ Square throat sizes.
